About Flammkuchen

The Flammkuchen, or Tarte Flambée, originates from the German-speaking Elzas region in the North-Eastern part of France, separated from Germany by the Rhine.

The Flammkuchen is a simple dish. In its original incarnation it consists of a wafer-thin bread dough base topped with sour cream, leek and bacon cubes. It is vaguely reminiscent of a pizza, but the thin base makes for a much crunchier and lighter bite.

It was dubbed 'Flammkuchen' from the days when bakers used thinly rolled bread dough to test the temperature of their wood-fired ovens. Some bakers began to top off this dough with sour cream and other ingredients and this is how the dish was born

Flammkuchen

Served until 8pm
